

# SACO

BALANCE · CONSISTENCY · SIMPLICITY

**Workforce Management | Access Control | Visitor Management | Hardware Solutions**

SACO delivers fully integrated workforce management, time & attendance and access control solutions designed to improve operational efficiency, enhance workplace security, and ensure regulatory compliance across all industries.

## WHO WE ARE

Established in 1976, SACO is a leading provider of workforce management and access control solutions, known for reliability, innovation, and performance.

We continuously evolve to meet industry demands, developing advanced systems that enhance productivity, strengthen compliance, and improve operational control.

With a proven track record across multiple industries, SACO delivers tailored solutions that streamline processes, improve accountability, and maximize resource efficiency.

Built on a foundation of balance, consistency, and simplicity, our solutions are both powerful and easy to implement.

# SACO

## WORKFORCE MANAGEMENT SOFTWARE MODULES

### Access Control

Secure restricted areas with advanced access control systems. Permissions can be configured and monitored to strengthen workplace security.

### SACO Guest

Manage visitor access and movement with advanced tracking and vehicle association, ensuring improved security and site control.

### Medicals & Inductions

Maintain compliance by restricting access to employees who do not meet required medical or induction criteria, supported by automated controls and reporting.

### Time & Attendance

Optimise productivity with accurate time tracking and reporting. SACO's scalable system provides clear insights into employee activity, enabling better workforce management and operational efficiency.

### Payroll Integration

Streamline salary processing through seamless integration. Improve accuracy, reduce administrative workload, and ensure efficient payroll management.

### Alcohol Testing Screening

Support workplace safety through integrated testing technologies, including breathalysers, ensuring compliance with company policies.

### Driver & Operator Licences

Secure restricted areas with advanced access control systems. Permissions can be configured and monitored to strengthen workplace security.

### Tool Management

Enhance accountability and reduce downtime with effective tracking of tools and equipment. Ensure proper allocation and improved resource control.

# SACO GUEST

## VISITOR ACCESS MANAGEMENT

SACO Guest is a visitor management solution that controls and monitors facility access. It verifies visitor and vehicle data in real time, ensuring only authorised entry while tracking all activity. By automating registration, it improves efficiency and ensures secure, reliable access control.

### OUR HARDWARE SOLUTIONS

#### Facial Recognition Readers

Provide secure, contactless authentication with high accuracy. Ideal for improving hygiene and ensuring reliable identification.

#### Fingerprint & Card Readers

Offer dependable and convenient access control, suitable for a wide range of environments, while maintaining accurate user verification.

#### Visitor Scanners & Tablets

Digital devices that streamline visitor registration and verification, eliminating manual processes and improving data accuracy.

#### Biometric Wave Readers

Enable touchless access through advanced sensing technology, enhancing both convenience and hygiene in high-traffic areas.

#### Turnstiles & Speed Gates

Modern and durable entry solutions designed for both corporate and industrial applications, ensuring controlled and secure access.

#### Breathalyser

Detect and deter alcohol use in the workplace, supporting safety policies and reducing operational risk.

#### Vehicle Barrier Booms

Provide effective vehicle access control with reliable security for commercial, residential, and industrial sites.

# WHY CHOOSE SACO

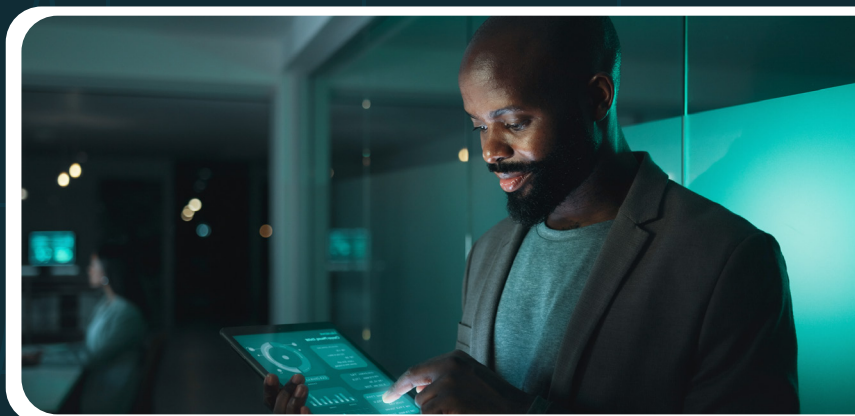

SACO is supported by a highly skilled team of technical experts with extensive industry experience. Our in-house capabilities allow us to successfully implement, customise, and support solutions tailored to the specific needs of each client.

We maintain our position as a market leader through continuous benchmarking, innovation, and alignment with the latest technological advancements. This ensures that our clients benefit from future-ready solutions that evolve with their operational requirements.

Our proven success across multiple industries demonstrates our ability to deliver reliable, scalable, and effective systems that drive measurable results.
